TOUGH GRIP

Easy to use Hippo irrigation clamps

HIPPO CLAMPS

Hippo Clamps are manufactured to the highest standards, ensuring you'll get the best result every time. Developed by the trusted experts at Toro, the specially designed Hippo Clamp range has been UV stabilised and is corrosion resistant which provides a fast and secure, long lasting clamping solution for irrigation systems.

Hippo Clamps are colour-coded and packaged in clear resealable bags for quick and easy identification on shelf and during installation.

Tight fitting band - provides maximum hold

Secure latch system - uniquely designed retainer for a positive lock

Designed & manufactured to clamp tight, first time, every time

One-hand installation and removal

Smooth edges to prevent tube/fitting damage

Made from quality stainless steel

WHY CHOOSE HIPPO CLAMPS?

Quality Irrigation Clamps

With over 40 years of experience in the field you can count on Toro to provide quality clamping products that are guaranteed to last.

Fully Colour-Coded Design

Each Hippo Clamp is uniquely colour-coded for quick and easy identification. The extensive range fits all popular LD Poly and Drip Tube sizes to provide a secure and accurate fit across a variety of installations.

Secure Latch System

Hippo's unique retainer is designed to provide a secure lock every time. To lock the Hippo Clamp simply use the Hippo Clamp Tool to "click" the latch over the retainer.

HIPPO CLAMPING SELECTION GUIDE

INSTALLATION & REMOVAL

1. Retainer 2. Latch 3. Upper Jaw 4. Lower Jaw

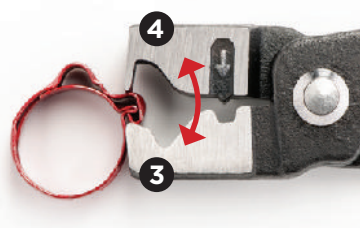

TO INSTALL

Slide Hippo Clamp over tube & into position. Apply lower jaw (4) of Hippo Clamp Tool to the retainer (1) and upper jaw (3) to the latch (2) on the Hippo Clamp.

Squeeze the handles of the Hippo Clamp Tool together until the latch 'locks' over the retainer. Release the Hippo Clamp Tool and remove.

TO REMOVE

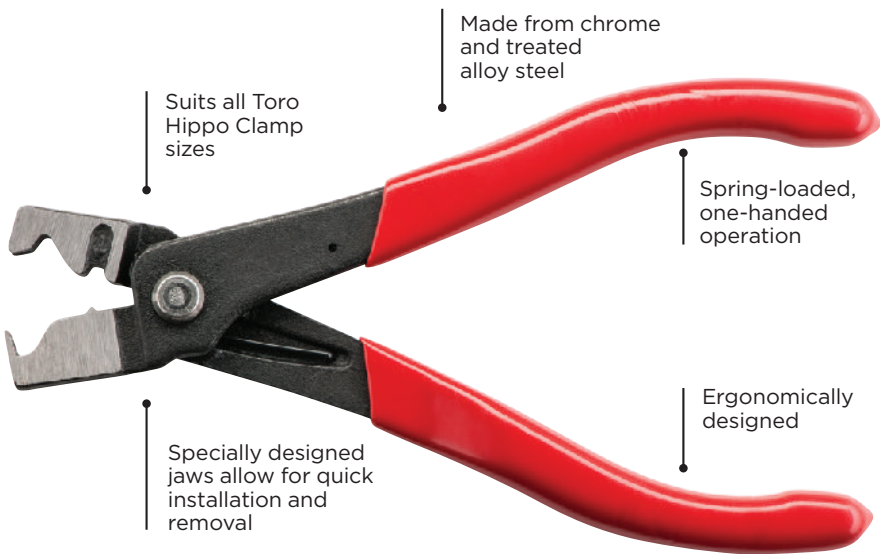

Rotate the Hippo Clamp Tool and apply the upper jaw (3) to the retainer (1) and lower jaw (4) to the latch (2) on the Hippo Clamp.

Squeeze the handles of the Hippo Clamp Tool together slowly until the latch 'unlocks' from the retainer. Release the Hippo Clamp Tool and remove.

THE HIPPO CLAMP TOOL

The Hippo Clamp Tool is designed for quick and easy fitting or removal of Hippo Clamps. Its specifically designed jaws and spring-loaded mechanism allow for quick and easy one-handed operation.

Ideal for domestic, commercial and agricultural installations
