Available in a  
range of colours  
to match your tank

Pre-plumbed pump and control valves

LED indicator and system test

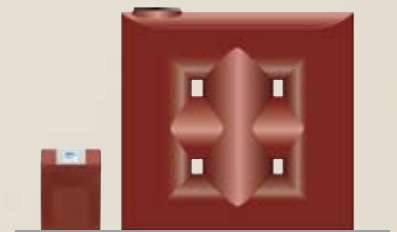

Quick plug control unit

## Simple and Smart.

*The MaxiSAVE<sup>®</sup> RM2000 is an automatic Rain/Mains Control System with in-built pump. The unique electronic features make the MaxiSAVE<sup>®</sup> RM2000 the smartest unit available.*

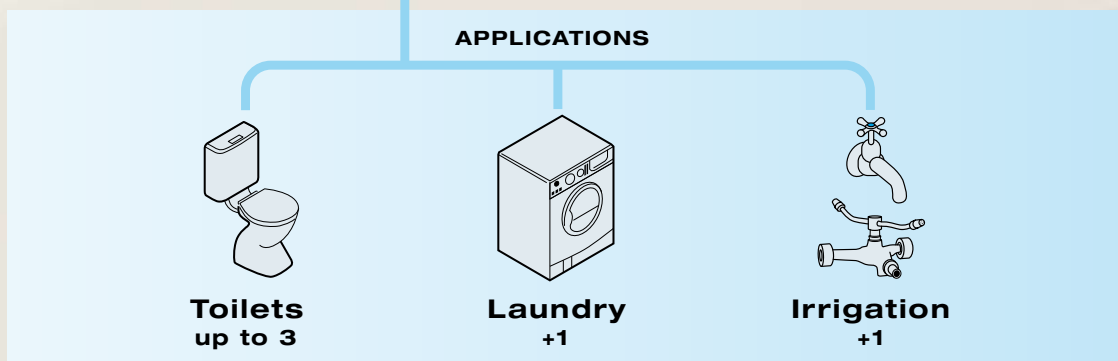

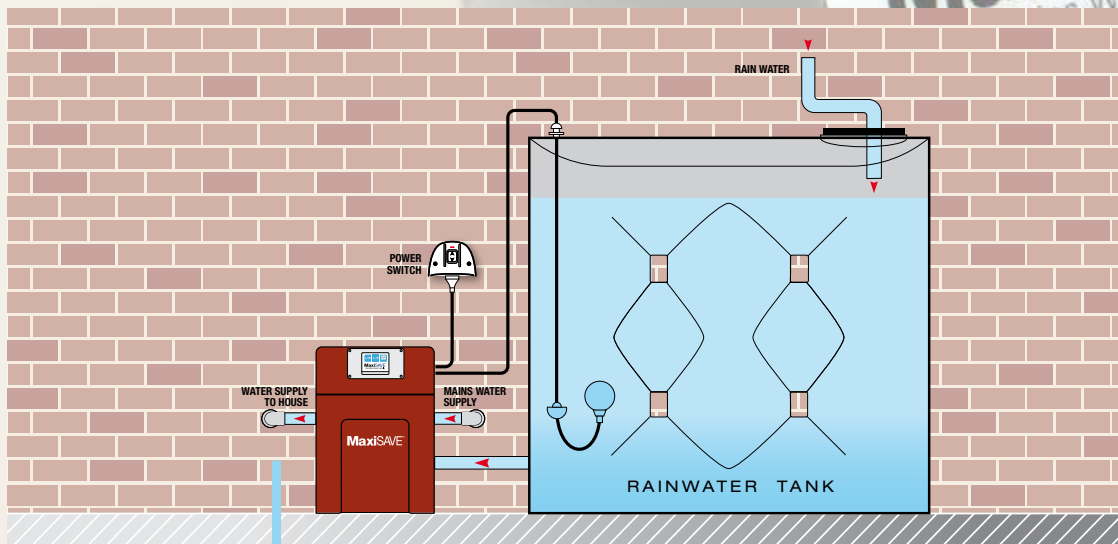

- > The **MaxiSAVE<sup>®</sup> RM2000** is designed to simplify and save time on installation, with an attractive appearance. The pump and control valves are easily accessed in case of maintenance inside a durable poly enclosure.
- > The **MaxiSAVE<sup>®</sup> RM2000** allows tankwater to be used for water supply in preference to mains water, the RM2000 will automatically switch from one water supply to the other as required.
- > The **MaxiSAVE<sup>®</sup> RM2000** allows for high volume water demands and is ideal for irrigation and larger home applications.
- > The **MaxiSAVE<sup>®</sup> RM2000** is designed to save water and reduce water expenses, it may also allow you to claim for a rebate when installed by a licensed plumber.
- > The **MaxiSAVE<sup>®</sup> RM2000** is energy efficient using less than 100 mA, thanks to the unique electronics and specially designed control valve.
