

LILYDALE  
INSTANT LAWN  
**SUPER**  
STARTER PACK

# APPLICATION INSTRUCTIONS

Through extensive research and development, Lilydale Instant Lawn have formulated the new Super Starter Pack!

With the combination of Sir Launcher, Good Bacteria, liquid Lawn Rescue (a blend of kelp and trace elements), liquid Lawn Soaker (warm season pack) OR ColourGuard lawn colourant (cool season pack). This is a complete support cycle for your new lawn, designed to maximise root establishment.

## INSTRUCTIONS FOR THE INSTALLATION

1. Put on your Lilydale Instant Lawn gloves.
2. Open your bucket of Sir Launcher. Spread the Sir Launcher pellet mixture using your hands or spreader over your prepared soil, follow bucket application rates.
3. Open your bag of Good Bacteria and evenly spread all the pellets over the prepared soil area using your hands.
4. Lay the turf according to the instructions supplied by Lilydale Instant Lawn (available also on our website [www.lilydaleinstantlawn.com.au](http://www.lilydaleinstantlawn.com.au))
5. Attach the Lawn Lovers Rescue bottle onto your hose. Each Lawn Rescue bottle covers 150m<sup>2</sup>. Simply spray your entire lawn area using only the portion of Lawn Rescue suited for your area. Eg. If you have a lawn area of 50m<sup>2</sup> only use a third of the bottle.

## WARM SEASON PACKS ONLY

Attach the Lawn Lovers Soaker bottle onto your hose. Each Lawn Soaker bottle covers 150m<sup>2</sup>. Simply spray your entire lawn area using only the portion of Lawn Soaker suited for your area. Eg. If you have a lawn area of 50m<sup>2</sup> only use a third of the bottle.

## COOL SEASON PACKS ONLY

If you have received the ColourGuard Solution

**STOP** Wait 6 weeks before applying this solution to your lawn area. Ensure that application instructions are closely followed for optimum results throughout the cool season.

If you have any Lawn Rescue & Lawn Soaker liquid remaining, simply reapply at the same rate in Step 6 above, every four weeks after your lawn installation until all Lawn Rescue & Lawn Soaker liquid has been used. If there is ColourGuard remaining, re-apply every 10 weeks if required.

## SSPAC SAFETY PRECAUTIONS

1. Wash Hands after use
2. Lawn Launcher, Lawn Soaker and Lawn Rescue; avoid contact with eyes. If contact occurs flush eyes under running water immediately and if irritation persists seek medical advice.
3. Colour Guard: avoid contact with eye and skin. If ingested or eye/skin contact occurs dilute with water and seek medical advice.
4. Good bacteria: Avoid contact with the skin by using the gloves supplied.
