BLUETOOTH® ENABLED SOLENOID VALVE

The BTV1 Bluetooth Enabled Solenoid Control can sync up to 8 valves with one app! With automatic or manual options available, you can manage the programming all from your smartphone.

Suitable for all K-Rain Solenoid Valves, the Bluetooth® has a 20m range. With DC latching coil included, you can easily replace existing solenoid coils.

## Features:

- ✓ **Smartphone Controlled Bluetooth®** operated irrigation
- ✓ **Flexible Programming** easy and quick scheduling
- ✓ **Battery Operated** ideal for remote locations with no power cables or wiring required
- ✓ **Automatic And Manual Starts** manual start from smartphone or solenoid valve
- ✓ **Easily Retrofit** by replacing existing solenoid coil
