

TORO®

POLY MANIFOLDS

Now Available!

Toro is excited to announce the release of its new range of 25mm Poly Manifolds. Available in 1, 2, 3 and 4 outlet versions, the Poly Manifold range also includes necessary fittings such as elbows, tees, nipple and end cap. The complete range is now in-stock and available for ordering. For ordering information please see below, or contact Toro customer service on 1300 130 898.

FEATURES & BENEFITS

**Maximum Working Pressure
of 1035 kPa***

**O-Rings set into fitting to
reduce fall out**

**Suitable for use with 25mm
Solenoid Valves**

* High pressures requires sealing tape or thread-locker to be used. When using the nipple at high pressures, it should be threaded to entirely to eliminate a gap between the nipple and the part it is being fitted to.
